

WEBGUYS PRESENTS:

SERVICES

FOR SMALL BUSINESS

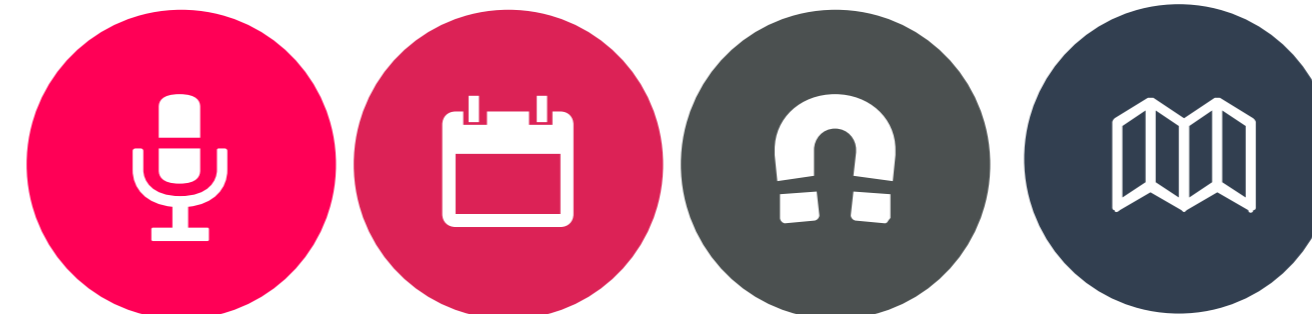

ABOUT US

Webguys2hire is a privately held company, consisting of a creative and multi-talented team comprised of web designers, web developers and graphic designers. We provide a wide range of services including web design, web development, SEO, videography services, and consulting.

WebGuys2Hire have been working with local businesses, advertising companies, marketing firms and non-profits since 2010.

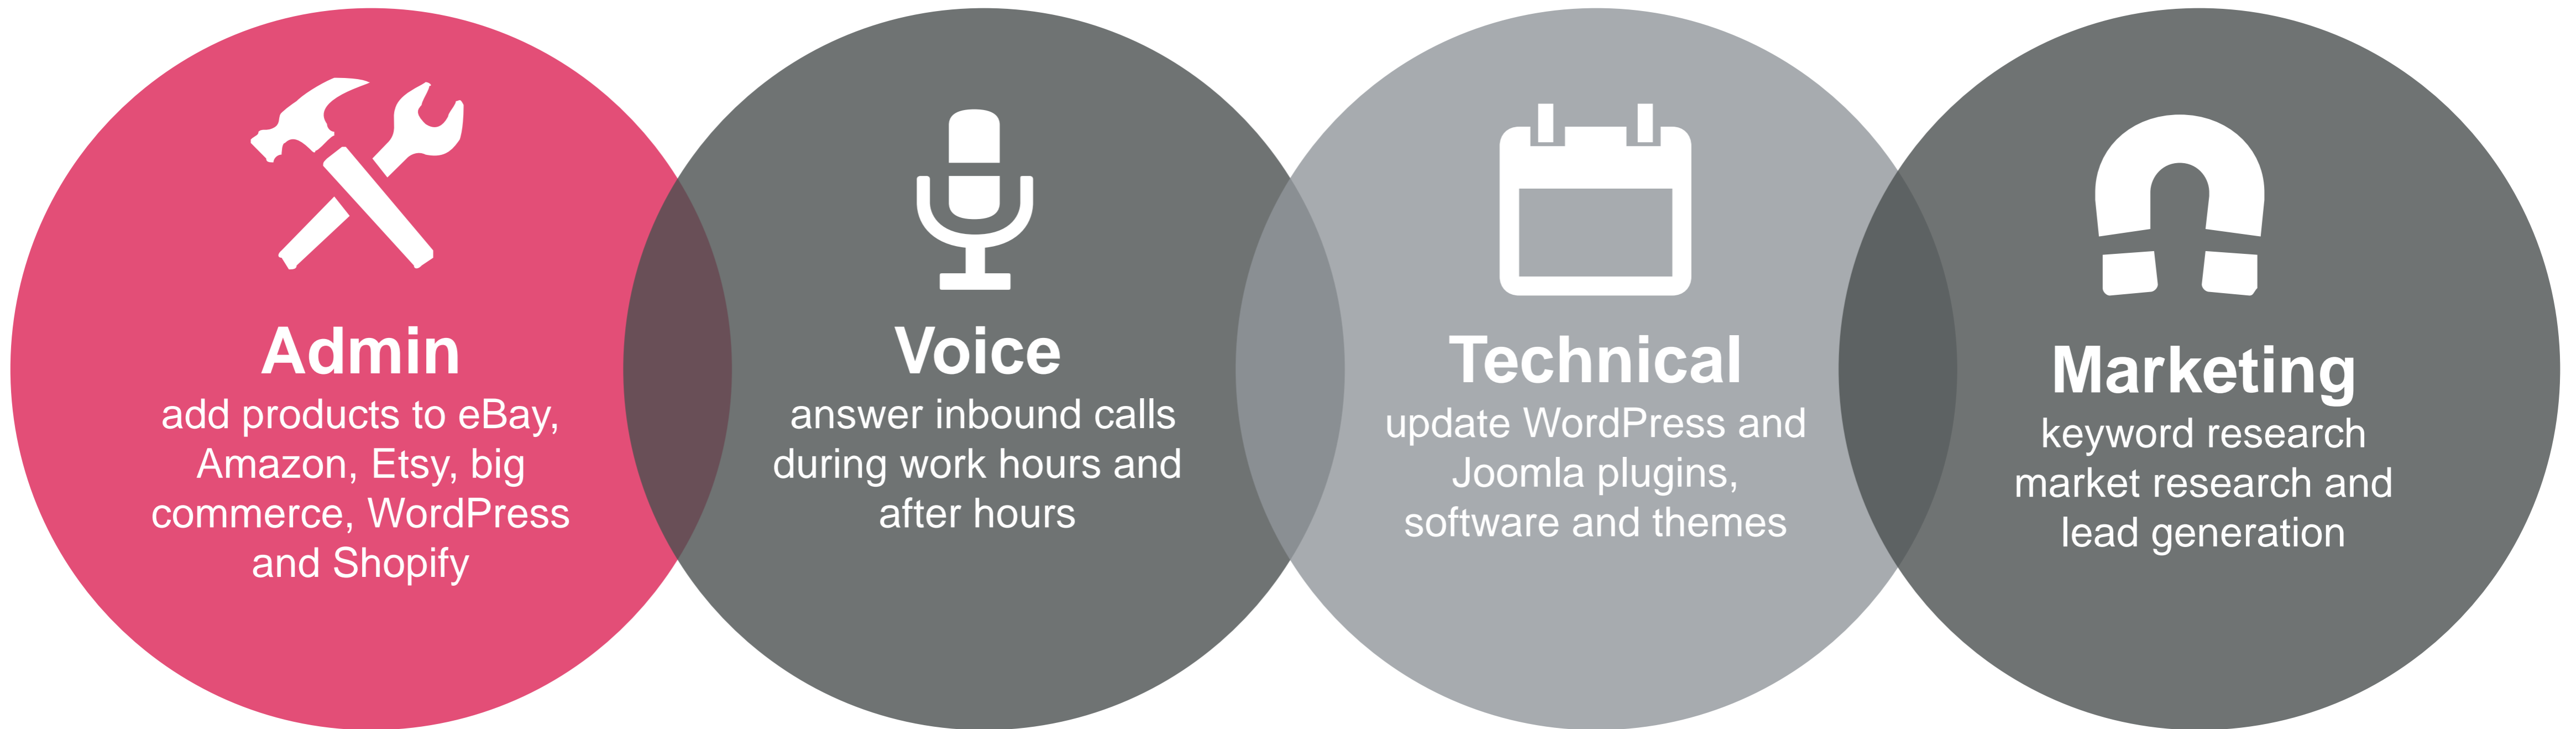

CORPORATE SLIDES

SERVICE OVERVIEW

Every business needs an effective web presence and website features, whether purely virtual or a brick-and-mortar store. Webguys2hire.com has successfully helped designed and implement marketing campaign and web applications for clients for over 5 years. We propose to provide your company with a full package of web services, configuration, training and maintenance services.

DESIGNING FOR YOUR BUSINESS

Save money, save time and grow your business

Webguys2hire help make you and your team more productive. Instead of you focusing on time consuming tasks, focus on the big picture and we'll take care of the rest.

Let us free up your time for tasks that grow your business and help you make more money. We can be your virtual marketing team to support your marketing department or be a Virtual standalone

We are 60-80 percent cheaper than hiring locally for the same work

Our services support local businesses monthly outsourced services in the following areas

You can choose general areas of services or a more specific tasks (ex. Branding or link building)

- admin
- technical support
- voice
- marketing

• *"The main reason why I use WordPress is because of it's flexibility and scalable. Considering all the power of WordPress and the plugins, if you were to build any of that from scratch, you would be spending tens of thousands of dollars"*

Andrew Warner
CEO of mixergy.com
